By Dr.L. on January 18, 2014 Format: Hardcover | Verified Purchase Criminalistics is obviously for a student or professor interested in forensics. This is a standard text, maybe written a little better than some. The problem with all of these kinds of textbooks is that it is out of date a few days after you receive it...the book is already in it's next edition! What I don't understand is, does the field of criminalistics change all that much so quickly? I understand that improvements and innovations in technology happen rapidly, but in looking at this text you wonder what it is that changed. While it is a good text, covering all the essentials of criminalistics, I'm not sure it's worth the price. It would be better to rent this text from some source if you really like it rather than purchase it outright. Read more 0 Comment | 2 people found this helpful. Was this review helpful to you? Yes No Report abuse 5.0 out of 5 stars Comprehensive By Tracey Smith on August 9, 2013 Format: Hardcover | Verified Purchase I bought this book as a refresher since it's been so long since I took a forensic course in school. It was comprehensive with topics covering trace evidence, DNA, firearms, fingerprints, etc. While not described in depth, this book provides introductions to these fields and is easily understandable (in my opinion) for someone with an interest in forensics. for a biology class I was taking. It is very interesting with lots of cases to review and make you think. Only con is that I didn't get the 'mycrimekit' registration number that should have come with the book. If you are buying this book, you want to make sure you get that number as well so you can go online and access more information. Read more Comment 3 people found this helpful. By Angela Bowman on August 17, 2016 Format: Paperback | Verified Purchase The book itself is awesome. But do not buy this version that comes with the MyCJLab. The publisher (Pearson) only grants access for customers who have purchased from Pearson directly. I just spent 2 hours of dealing with customer service to find this out. Ugh!
