Synopsis :

From the Back Cover Fundamentals of Clinical Supervision, 5/e offers a comprehensive, interdisciplinary presentation that makes it the most highly cited publication in the field. Addressing essential topics for supervisors, it has earned a reputation as an authoritative resource for anyone seeking certification as an Approved Clinical Supervisor. Emphasizing central themes from a variety of mental health professions, the book covers supervision models, supervision modalities, administrative issues and professional concerns. Its one-of-a-kind supervision toolkit, scholarly approach, and topic coverage set the book apart. New to the Edition: New coverage of 'second-generation' models of supervision complete with a conceptual map tying them to the first generation models. New theoretical and empirical information across all topics from all relevant mental health fields. Updated chapter on multicultural supervision reflects the growing sophistication within the mental health disciplines around cultural issues. A new section on triadic supervision is presented as a subset of individual supervision. New sections on technology show how it can assist supervision for both individuals and groups. More on counseling supervisees on professional issues such as competence and remediation. New tools in the Supervisor's Toolbox including an updated supervision contract and updated ethical standards. Also from Janine M. Bernard and Rodney K. Goodyear: 0205591787 - Fundamentals of Clinical Supervision, 4/e - ©2009 Read more About the Author Janine Bernard is Professor of Counseling and Counselor Education at Syracuse University.
