Synopsis :

Review Another reliable guide from the Oxford Handbooks series. It takes a symptom or physical finding and lists the possible differential diagnoses. It includes a summary of the investigations needed. It also refers the reader to the relevant pages in the Oxford Handbook of Clinical Medicine. This book could be used as a revision aid - it would provide a comprehensive list of diagnoses when taking histories on the ward. Northwing The book tackles a minefield of signs and symptoms, putting them all together in an attempt to simplify a clinical problem...The approaches are easy to remember and non-intimidating...each system is then broken down into common symptoms, then signs. This is also excellent...[it] gives a good, clear, concise view of a very difficult and broad subject, and must have taken some time to put together...a good book to slot into your library. British Journal of Hospital Medicine The Oxford Handbook of Clinical Diagnosis is an excellent resource which can help students and junior doctors to hone their diagnostic skills. ... It teaches you how to pick out the important 'lead' features of a history and how to decipher the relevant from the irrelevant. ... this is a refreshingly different textbook with a clear layout and is easy to navigate. ... I would recommend it to all clinical students and junior doctors. GKT Gazette I can't for the life of me work out why OUP hasn't come up with a book like this before. After all when you've taken the history and examined the patient you want to know the likeliest diagnosis and be able to justify it and that's exactly what this book does. ... Another first class compact but comprehensive book from OUP and particularly recommended to the student and junior doctor. Dr JM Sager Read more About the Author Huw Llewelyn is at Formerly Honorary Consultant Physician, King's college Hospital, London, UK. Hock Aun Ang is at Clinical Lecturer, Penang Medical College (a partnership with RCSI and UCD in Dublin); Consultant Diabetologist and Endocrinologist, Penang, Malaysia. Read more
